**University of Heidelberg, School of Medicine
Institute of Physiology and Pathophysiology
PhD student scholarship within an International Graduate School**

Within the division of Professor M. Hecker (Cardiovascular Physiology), a scholarship is available from January 1st, 2007 at the latest. The successful candidate should enjoy interactive teamwork in the field of vascular biology and have completed programs (M.S./M.A.) in the natural sciences, human or veterinary medicine.

The research activities of the funded project concentrate on both the causes and consequences of pathophysiological vascular remodelling processes (e.g. atherosclerosis). The scientific project will be matched by an international program of lectures and courses. General information about our institute can be obtained by phone (+49 6221 544035) or from the institute's website <http://physiologie.uni-hd.de>. Informal inquiries can also be addressed to d.douglas@physiologie.uni-heidelberg.de.

Please submit your curriculum vitae, a statement of the research interest and the names of two referees to the project leader:

**Thomas E.T. Korff
Institute of Physiology and Pathophysiology
Division of Cardiovascular Physiology
University of Heidelberg
Im Neuenheimer Feld 326
69120 Heidelberg
Germany**

The closing date for applications is four weeks after publication of the advertisement.
